

Colegio John Bunyan

Brief History:

Two families approached us in 2018, asking for help with homeschooling their children. Six students attended that first year, as Tammie and our church secretary supervised and taught classes to three different grade levels.

The following year, we had 10 students, then 12, then 10 again. This year is our first official school year as a government-certified school. We enrolled 16 students in January of this year and are already one-third of the way through the school year.

We employ 6 teachers, 2 nannies, a secretary, and a music teacher/PE teacher.

Our school is using the church property for classes during the morning hours.

This Year:

We are currently expanding the school to a junior high and high school. Please pray as we work toward this goal; pray that we will have the junior high and high school certification in time for next year. We have 4 students in need of going to 7th grade next year. Without the certification of the junior high, they would be forced to enroll in a public school.

Highlighting Two Students:

I want to tell you about two students who came to us. One is 12 years old. He had a hard time with distance learning through the quarantine and pandemic months. He did not pass his 5th grade tests at his previous school, and they would not allow him to return. We tested him, and he did very well, allowing him to enroll in 6th grade. He comes from a broken home and is being reared by his grandparents. His grandfather came to the Parent-Teacher Meeting a couple of weeks ago and just cried for joy, telling us how his grandson has changed in every area—behavior, learning, attitude—and even his health has improved. Praise the Lord!

The other student entered 4th grade. He seemed to have learning disabilities, but as the weeks progressed, we have seen him shine in every area. His parents are so happy that he is doing so well.

Every student has a story. Every student represents a family being reached for Christ.

Thank you for partnering with us in this very valuable ministry.
