

December 9, 2023

Dear Praying Friends,

The radiation journey has come to an end Thursday. Hallelujah!!

The full effect won't be known until a PET scan can be performed. They don't schedule these until three months after your last treatment. This is due to the radiation still "working" on the tumor.

I do have the following appointments or treatments scheduled:

- December 9 Eye Field Test
- December 11 Meet with Rheumatologist
- December 16 IVIG treatment #1 (This is a three- to four-hour process, and four are scheduled for December.)
- December 18 Breathing Test
- December 19 Chest Ultrasound

Thank you for praying.

Ben Turner
